

Elevare™

Stacking Double Glazed High Wall System

The Elevare™ Stacking Double Glazed High Wall System is an innovative system that supports glass without drilling or cut outs and is streamlined for energy performance. It's design allows for the movement/reconfiguration/relocation the connection elements in a monolithic, laminated or insulating glass system. The Elevare™ Stacking Double Glazed High Wall System is ideal for high visibility areas where sound control is important.

Available Glazing: 3/8" Clear Tempered, 3/8" Laminated Glass, 1/2" Clear Tempered, 9/16" Laminated Glass, Laminated LCD privacy glazing

Standard Finishes Available: Silver Anodized

Maximum Panel Height: 24'-0" (Higher Elevations are available with Engineered Design)

Maximum Panel Width: 48"
